

GRANT FUNDING PROGRAMS

2010-2011

Please check this site on a regular basis, as programs, grant information and application deadlines change frequently. We will update this list when new information becomes available.

While we conduct our own research and access many government infrastructure programs, we also attempt to provide grant program information to external organizations within the City.

The City of Vernon invites the public to contact the Grants Officer with any information regarding grant programs that they feel would be of benefit either the City or other civic organizations. lwilliams@vernon.ca
