Location: Schubert Centre (Side Ballroom)
Address: 3505 30 Ave Vernon, BC

(Finalized Agenda will follow in January.)

The Forum is focused on the presentation of the following two projects:

Developer's Package

This project is aimed at collating and creating a package that will provide valuable information to developers to help them understand how they can facilitate affordable housing projects in the North Okanagan. Information in this package will include processes, incentives, and sample agreements as well as financial models and case studies of current and potential affordable housing projects in the community.

Not-For Profit Land Inventory

The main objective of this initiative is to connect with not-for-profit, faith groups, service clubs and governmental organizations in the region to determine the various land holdings and identify if there are current/future planned projects specifically regarding affordable housing. In addition, this initiative will discover any barriers or challenges these organizations may have moving forward with their ideas as well as identify the suitability and zoning for any identified land holdings. This information will be pulled together in an inventory that can help create potential synergies and partnerships to further these projects.

This forum will be of interest to developers, non-profit organizations, government representatives and community members who would like to get involved are invited to attend this forum.
