

Okanagan Lake Access Study

Overview of Individual Rights of Way

Site 13 – Located between 7940 and 7954 Tronson Road

This is a good site for community access.

Priority: 19

Overview of Site:

- This right of way offers attractive access to the Lake, but it does accommodate the neighbours' driveways.
- There is space available to construct parking, and a good viewpoint, on Tronson Road.

Recommended Actions:

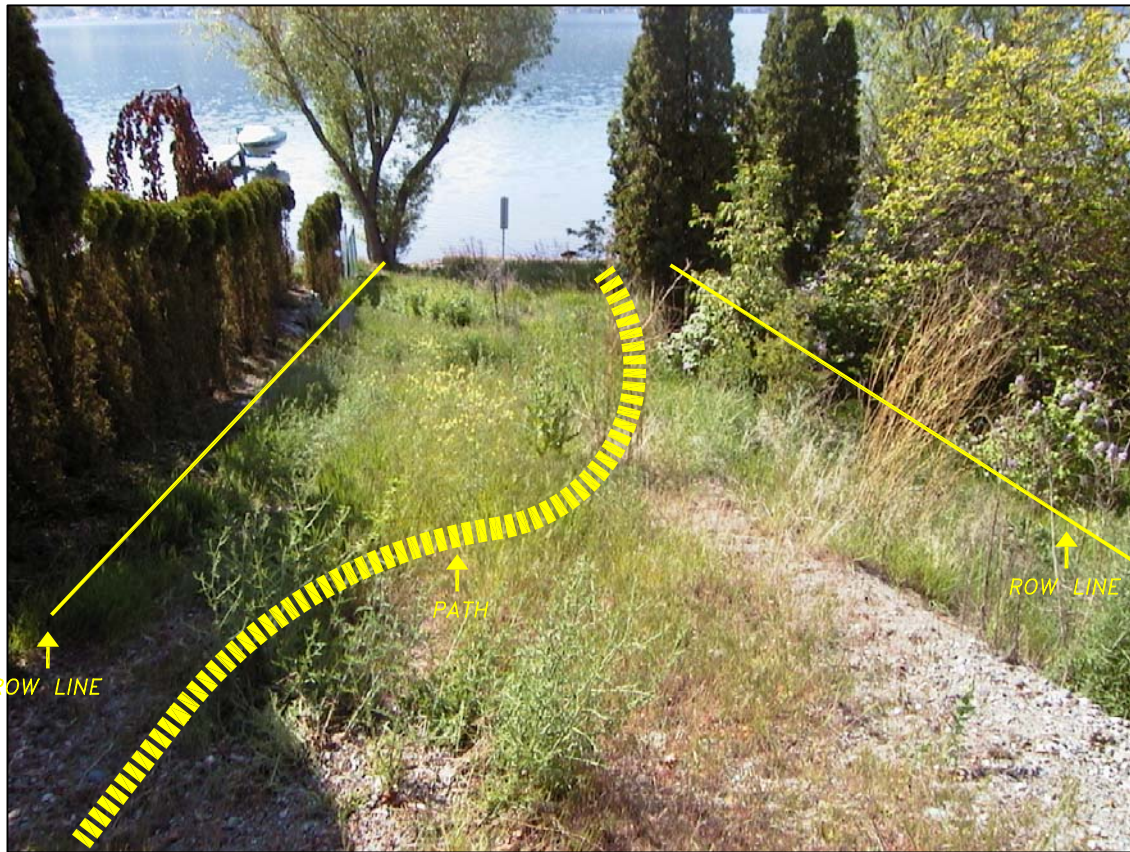

- Construct a trail to the Lake, provide parking, picnic tables, and a viewpoint as per the accompanying Plans.

Estimated Budget:

- The estimated cost of the works identified is \$ 41,720.

Specific Considerations:

- There will be a challenging design solution required to accommodate driveways, and protect privacy and security of adjacent homes, while constructing a pathway to the water that people feel comfortable using.
- Given the design challenge this is rated a lower priority.
