

# Okanagan Lake Access Study

## Overview of Individual Rights of Way

---

**Site 14 – Located between 7796 and 7814 Tronson Road**

**This is a good site for local and upland community access.**

**Priority: 21**

---

### **Overview of Site:**

- This right of way offers attractive access to the Lake, but it does accommodate the neighbour's driveway.
- Has direct access to the upland area for future residents.

### **Recommended Actions:**

- Construct a trail to the Lake, provide picnic tables as per the accompanying Plans.

### **Estimated Budget:**

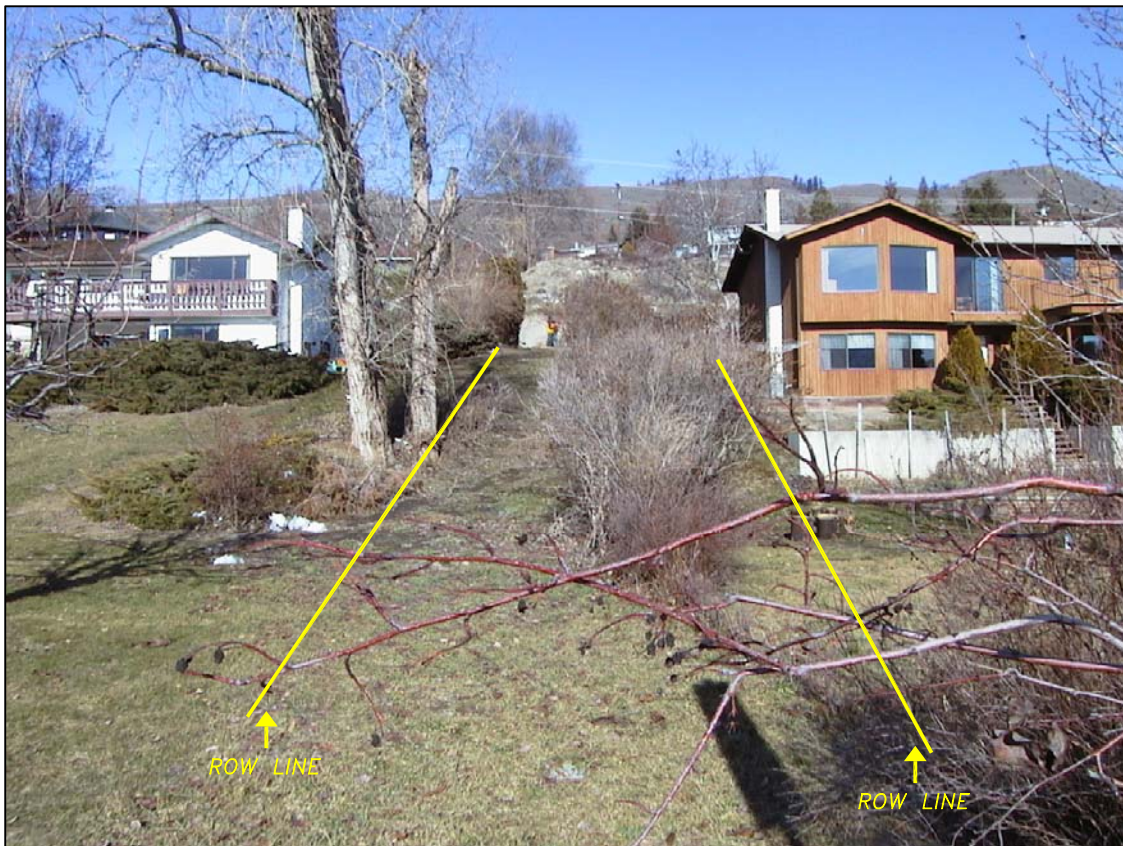

- The estimated cost of the works identified is \$ 49,980.

### **Specific Considerations:**

- The design will need to accommodate the existing driveway, and protect the privacy and security of the adjacent home, while constructing a pathway to the water that people feel comfortable using.
- Given the design challenge this is rated a lower priority.
