

# Okanagan Lake Access Study

## Overview of Individual Rights of Way

---

**Site 19 – Located between 7448 and 7458 Tronson Road**

**Recommended for Disposal, Subject to Further Study**

---

### **Overview of Site:**

- This is a narrow (25 feet), right of way with a steep drop that offers poor accessibility to the Lake;
- The right of way accommodates utilities;
- It is split north/south by Old Stamp Mill Road;
- Superior access is available at Kennedy Lane (Site 18) to the west.
- The Site does have some encroachments.
- The question has arisen as to whether or not ownership of these rights of way create an opportunity for City/Public use of Old Stamp Mill Road.

### **Recommended Actions:**

- Review the implications of this access with respect to whether or not it provides for City/Public access to Old Stamp Mill Road, and report back to City Council with recommended actions.

### **Specific Considerations:**

- If sold in future ensure that a statutory right of way is retained for the City utilities and drainage course and explore the possibility of splitting the right of way at Old Stamp Road as part of the sale process.
