

Why Does Vernon Need a New Airport Master Plan?

- Significant **changes** have occurred in the aviation industry and in the community over the last several years
- **Transport Canada** has updated the guidelines for aerodromes and vicinity
- The Vernon Regional Airport has developed as a **hub for airport related industry**, entrepreneurs and innovative aviation technology
- The **OCP and Council Strategic Plan** provide direction for updating the Airport Master Plan
- The **Sustainable Infrastructure Investment Plan** indicates that the Airport facilities are aging
- A **Runway Feasibility Study** for an optional extension of the runway was completed and submitted to the City in June 2014

Master Plan “EDAP” Objectives

- To **EVALUATE** both existing and future aviation needs
- To **DETERMINE** long range requirements
- To **ASSESS** site development alternatives
- To **PRODUCE** a plan which yields an economical, safe, and environmentally sustainable public facility

Master Plan Planning Process
