### **Parks Master Plan identifies need for Hidden Park improvements**

The City will be installing a picnic table this year in Hidden Park, located at 3407 33 Avenue. This is just one of the many improvements underway in Vernon parks that are guided by the City's Parks Master Plan.

Prior to the development of more improvements for Hidden Park, an environmental assessment and hydrology study will be undertaken, and the results of these studies will help guide the design. Public participation will also be a key part of the design process. The timeline for the study, public participation and design process is approximately two years.
