---

### **City of Vernon play fields closed**

The City of Vernon has temporarily closed play fields to public use. James Rice, Manager, Public Works, notes that fields are saturated due to recent rain and snowmelt. The fields are exceptionally soft and using them for casual play and sport practice may damage the turf conditions.

The City respectfully requests playfield users to stay off play fields until conditions improve. City staff will monitor field conditions and advise the public when use is permitted.

We thank you for your patience.
