Traffic signal conflict testing and maintenance

Traffic signal technicians will be testing conflict monitors at all City of Vernon intersections starting Monday, Sept. 10 and continuing to Friday, Oct. 12, 2018, from 7 a.m. to 3:30 p.m.

Testing will require the intersection to be placed into flash mode twice in a one-hour period.

We ask that the traveling public be patient, slow down and use care when approaching the signalized intersection where the testing is in progress.

Four way stop will apply while intersection are in flash mode.
