28th Avenue Road Closure

As part of the City's continued investment in the downtown, the 28th Avenue Road and Utility Rehabilitation Project will start this Monday on March 25, 2019. The project will include road closures from March 25, 2019 until June 28, 2019:

- 28th Avenue from 32nd Street (Highway 97) to 30th Street;
- Coldstream Avenue from 32nd Street (Highway 97) to 28th Avenue; and,
- 31st Street from the laneway south of 29th Avenue to the laneway north of 28th Avenue.

Detour signage will be in place to redirect motorists. Pedestrian access will be maintained during the road closures.

Reconstruction on 28th Avenue is required due to the poor condition of the road and underground utilities. It is one of the 2019 Capital Projects presented at the City's recent Public Open House held on February 26, 2019.

The 30th Street to 32nd Street (HWY 97) project is the final phase of improvement on 28th Avenue.
