Detour required for completion of sanitary sewer installation

The City of Vernon is currently upgrading the sanitary sewer infrastructure in 25th Avenue and Highway 6, between 28th Avenue and the Vernon Water Reclamation Centre.

The final phase of construction is now underway, which requires a road closure and detour along 25th Avenue, from Hwy 97 to 28th Avenue. The work is scheduled to be completed by the end of this month.

For the safety of workers and the public, please slow down, allow extra time to pass safely through the construction area, or plan to use an alternative route.

All businesses in the construction area will be accessible during construction.

The City appreciates everyone's patience while this work is being completed.

A map of the full project area is available below.
