Water main break being repaired on Highway 97, south of Hospital

The City of Vernon would like to advise the public that utility crews are repairing a water main break that has occurred in the 1600 block of 32nd Street (HWY 97), south of the Vernon Jubilee Hospital.

Water service has been interrupted for approximately 20 properties in the area. Water service remains available for the Hospital. Crews anticipate the repairs will take 2 – 3 hours to complete.

Both northbound lanes on Hospital Hill are closed and traffic has been reduced to single lane in both directions while crews make the repairs. Motorists are asked to slow down in the area and obey traffic control measures.

The City apologizes for any inconvenience this interruption may cause and appreciates the public's patience while repairs are made to the site.

A map of the water main break area is available below.
