TELEPHONE: 250-550-3539

Survey extended: Final days to have your say on the City Centre Park design concept!

Activate your voice and be part of the planning process for a new park in the City Centre! This is a rare opportunity to create a new park downtown.

Located next to the newly completed multi-use trail, in the growing City Centre, this park will become a focal point for the neighbourhood and provide needed greenspace.

The design concept for the new City Centre Park was developed in response to input received from the community in 2020. We are now asking the community to tell us what they think and there are a number of ways to participate. Community members can view a [narrated video online](#), download detailed information about the park design, participate in a 'virtual open house' by posing questions that City staff will answer, and give their feedback via a short online survey.

Input on the design and features of the new park can be provided at www.engagevernon.ca/new-city-centre-park. **The survey has been extended until May 30, 2021.**

Following completion of the survey, the concept design will be adjusted based upon public feedback and presented to Council in June 2021 for approval to proceed to construction.
