Temporary closure and restructuring of 31st Avenue Parking Lot

The City of Vernon will be making improvements to the 31st Avenue parking lot this weekend as part of its annual maintenance program. The improvements to the lot located at 31st Avenue and 29th Street will include grading of the surface material and restructuring of parking stalls to add approximately 20 additional spaces.

In order to complete the work and for the safety of workers and the public, the parking lot will be closed temporarily.

On **Friday, October 29**, the east side of the lot will be closed and heavy equipment will be used to grade the area. On **Saturday, October 30**, the whole lot will be closed and concrete parking barriers will be adjusted to optimize parking opportunities.

Signage and barriers will be installed to identify the realigned daily and monthly parking sections (see map below), both of which will have additional stalls made available for use. Permanent signage will be installed in November.

The City appreciates everyone's patience and understanding while this work is being completed.
