City of Vernon annual pavement crack sealing program gets underway this week

Motorists traveling throughout the northwest portion of the community may see crews repairing cracks on the road over the next few weeks.

Starting today (Tuesday), contractors will be crack sealing City roads in parts of the Heritage Area, Turtle Mountain, Alexis Park, and along Old Kamloops Road. The program is expected to take approximately four weeks to complete.

If you come across crews, please remember to slow down and obey all traffic control measures. If you have questions about the program, please feel free to contact our Operations team through the City's email [web form here](#).

The City appreciates everyone's patience and understanding as this work is being completed.
