### Update: Pottery Road closure

Work continues on Pottery Road and 18<sup>th</sup> Street as crews repair damage that was caused by a water main break earlier this month. Water service was restored to all impacted customers on the same day as the main break; however, the necessary road repairs have taken more time to complete.

Paving and line painting are expected to be completed over the next few days and both roads are expected to be reopened by the weekend, weather permitting.

Motorists are reminded to slow down in construction and detour zones and obey all traffic control measures. The City thanks everyone for their patience and understanding as these emergency repairs have been made.
