28th Avenue reconstruction project continues with next phase of road work

Crews continue to make progress on a major reconstruction project on 28th Avenue.

The City would like to advise motorists that during the next phase of the project, some additional detours will be in place to allow for curbing, sidewalk, and paving works to be completed.

A section of 28th Avenue between 28th and 29th Streets will be closed. In addition, a section of 27A Avenue between 28th Avenue and Highway 6 will be closed. Detours will be available on 29th and 30th Avenues (please see map below).

The work is expected to be completed by October 31, weather permitting

Access to area businesses will remain open and residents are encouraged to continue supporting local businesses.

Motorists are reminded to slow down in construction and detour zones, and obey all traffic control measures. The City thanks everyone for their patience and understanding while this work is being completed.
