Early Morning Work Required for Sanitary Sewer Main Flushing Project

The City of Vernon would like to inform the public about a sanitary sewer main flushing project that will involve early morning work.

Starting as early as Tuesday, November 19, and continuing daily until Friday, November 22, the work will occur between 1:00 a.m. and 7:00 a.m. Please note that these times may change if emergencies arise.

The flushing will take place in the following areas:

- 41st Avenue (west of 31st Street)
- 28th Avenue at 31st Street
- 25th Avenue between 34A Street and 32nd Street (Please see map below)

The early morning timing is necessary to complete the work when there is less flow through the sewer system.

During the flushing, residents in the surrounding areas may hear some noise. Efforts will be made to minimize disruptions, but it is recommended that residents keep their windows closed overnight, if possible.

The City apologizes for any inconvenience this may cause and appreciates your patience during this necessary work.
