

THE CORPORATION OF
THE CITY OF VERNON

SNOW REMOVAL

All sidewalks should be cleared to their full width. This will allow for the passage of baby buggies, walkers or wheelchairs. If possible, please pile the snow on the boulevard or private property (not onto roadways) to allow for storage of street snow along the curb area.

Please be advised that should the clearing not be completed within 24 hours after the snow fall as required, we will arrange to have the work done at your expense.

PLEASE help keep our City streets safe for pedestrians by shoveling snow and removing ice from the sidewalks and footpaths bordering your property as per The Good Neighbour Bylaw #4980.
