

# Exciting things are in the works

PROJECT INFORMATION

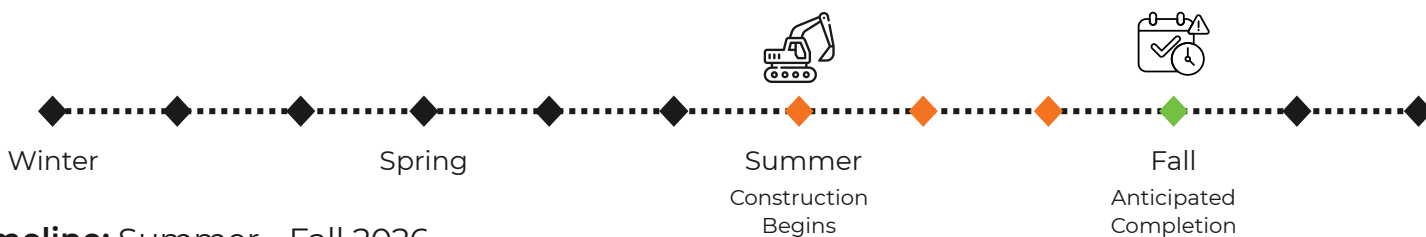

## ***DND Field Enhancements***

### ***DND Field Lighting & Ball Diamond Renewal***

Improving safety, accessibility, and amenities at the DND Grounds.

**Investment:** \$650,000

**Funding Source:** Growing Communities Fund (Provincial Grant)

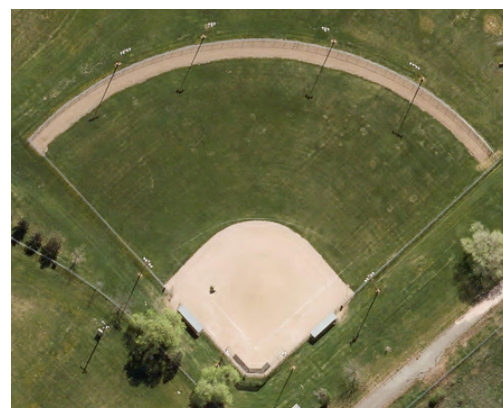

**Timeline:** Summer - Fall 2026

\*Schedules are subject change due to weather, contractor timelines and other factors.

*Concept of new field lighting and turf enhancements*

*Aerial view of lighting concept*

Investing in play, sport, and community through targeted park asset renewals at DND Field.

We are upgrading the DND Field to improve safety, visibility, and usability for the community. While the City does not own the DND Grounds, we maintain the sports fields for the benefit and enjoyment of the community. Existing field lighting will be replaced to enhance visibility for evening use, creating safer conditions for players and spectators and supporting extended field hours.

Ball Diamond #5 will also be renewed to improve playability and long-term sustainability. Upgrades include new player dugouts, refreshed topsoil and hydroseeding in the outfield for a more level playing surface, new infield shale with updated base lines and anchors, new backstop shade material, improved warning track shale, and durable galvanized chain link fencing.
